

Join the Invasive Species Mapping Challenge!

Jumping worm

Water chestnut

Join us on

Wednesday, June 27th from 12:15 to 1:30 PM

for a webinar on jumping worms and water chestnut, two invasive species that are underreported in New York State!

Learn how to identify these invaders and how to report your findings into the *iMapInvasives* database.

Use your knowledge to participate in a statewide competition from July 5th to July 19th.

Compete for prizes and bragging rights!

To register online, please visit www.NYimapinvasives.org.
