

JOHNS BROOK LODGE

Welcome to the Adirondack Mountain Club! We hope that this information will answer any questions that you might have about your upcoming stay in the Johns Brook Lodge. This letter is also designed to let you know what to expect: a cozy and convenient base camp in the central High Peaks Region, and what not to expect: Showers, flush toilets, electricity and linens. Johns Brook Lodge is a **3.5-mile hike** from the Garden Parking lot in Keene Valley. The lodge accommodates 28 people in four bunkrooms. Two of the rooms sleep 10 people and two of the rooms sleep 4 people. Pillows are provided. Guests must bring sheets and blankets or sleeping bags and towels. Propane is used for all cooking and lighting. There is a woodstove in the living room.

JBL CARETAKER SEASON:

Caretaker service is available at JBL from Labor Day until late-June. During Caretaker season, a caretaker is available to provide trail information and oversee the lodge. There is no crew to serve meals, however the kitchen is available for guests to prepare the food that they pack in. The kitchen includes refrigerator space, pots, pans, dishes and cutlery. The JBL kitchen is outfitted to prepare and serve 28 guests during full-service. Let your culinary imagination run wild, there is no need to limit yourself to freeze-dried food. Guests are expected to do their own dishes and clean up after themselves. During the **winter months** please be prepared for colder temperatures; a zero degree sleeping bag is recommended as well as warm clothes and an extra pair of inside shoes or warm slippers.

Water – running water is available at JBL from mid-May until mid-October. From mid-October through mid-May there is no running water; during this time water must be collected from the brook. This will be a shared effort between guests, staff and volunteers. Collected water must be filtered, chemically treated, or brought to a rolling boil for a minimum of 2 minutes before use (NYS Department of Health recommendation).
